

State of Illinois
ENVIRONMENTAL PROTECTION AGENCY
MEMORANDUM

DATE: October 25, 2011

TO: Division Files - Bureau of Land

FROM: Chris Cahnovsky – Collinsville Region

SUBJECT: 1198010003 – Madison County
Estate of Chemetco
FOS File

On August 25, 2011, I conducted an inspection at Chemetco, Inc. Present during this inspection were Jorge Garcia, ES&H Manager for the Estate of Chemetco and Mike Murray of AIS.

SCRUBBER SLUDGE LOAD OPERATION

No scrubber sludge has been loaded by Fred Weber Inc.

FOUNDRY BUILDING DEMOLITION

AIS was in the Foundry Building screening furnace clean up solids removed from the floors, around the furnaces, off beams, decks and the mezzanine level. A screener was being used to screen out the large debris. The large debris was being handpicked to remove copper pieces. The screened fines were being piled in the northwest corner of the Foundry Building. The large debris was being placed in a RCRA roll-off box. Mr. Murray estimates that about 200 cubic yards of screened fines will be generated from the cleaning of the Foundry Building. All fines will be staged in the northwest corner of the Foundry Building.

The asbestos removal has been completed in the Tank House and Foundry Building. I observed that the waste asbestos tile (D008) has been placed in drums and the drums have been placed in a RCRA roll-off box.
